HELIPRO
COMMUNICATION INTERFACE

- Homeland Security
- Civil security
- Industrial sectors & Noisy environments
- Motorcycle users & Operational mobility

Designed for all your missions.

A universal Bluetooth interface compatible with all headset equipment: Tactical, Noise-cancelling, or Motorcycle helmets. Available in wired or wireless versions for total freedom of movement.
A flexible, reliable and intuitive solution, designed for complex Missions and compatible with current as well as future infrastructures.

HELIPRO: Robust communication system for Complex Missions.

www.comusystems.com

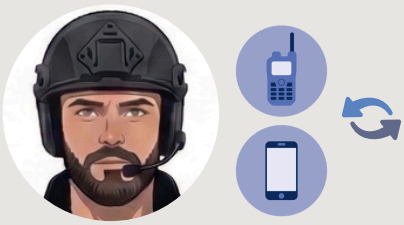

HELIPRO integrates into all your operational configurations, whether it be tactical helmets, industrial helmets, civil security devices or motorcycle equipments.

Its universal interface allows for a simple, fast connection that is compatible with existing systems.

- Integration with DMR / TETRA / TETRAPOL networks
- Compatibility with MCX applications

**Wired or wireless configurations, depending on requirements*

Full compatibility

- Interface adaptable to all Headgears: Tactical, Civil, Motorcycle, Industrial, Noise-cancelling
- Works on both current and future infrastructures
- Designed to evolve with your professional communication technologies

Audio performance & ease of use

- Crisp & Clear transmission, even in highly constrained environments (Industry, civil security, mobility)
- Intuitive to use, designed for Robust handling during Missions.

Installation & adaptation

- Quick and easy setup
- A modular system, adaptable to your field needs
- Customization options for specific business needs: connectivity, ergonomics, hardware integration

Available Configurations:

HELIPRO - Wired version:
Reliable and continuous connection. Ideal for fixed installations, vehicles, and sensitive Missions.

HELIPRO - Wireless Version:
Total mobility. Perfect for dynamic Missions, civil defence, and large industrial environments.

Tell us about your requirements. Together, we will design the HELIPRO configuration best suited to your Mission conditions.
